I am Kevin Hamon, born in 1988 and raised in the small city of Pornichet on the Atlantic coast of France. Graduated from the Technological University in 2008, I finally decided to follow my passion for digital illustration. Self initiated, I worked in a small e-learning studio doing flash animation and illustration for 9 months, then as a

freelance Interactive Designer in Paris for clients such as Microsoft, Ben & Jerry's, Ubisoft and few others. I am now enjoying the Interactive Art Director's course at Hyper Island Stockholm, looking for an awesome internship in an award-winning agency.
